Our store in the past two weeks has been a veritable beehive; in fact, we experienced great difficulty to wait on our customers. We take occasion here to express our thanks to those who waited so patiently last Saturday until we found time to wait on them. Now, there is a cause for every effect. For \$10, \$12, \$15 and \$18 you buy Suits in our house that you cannot duplicate elsewhere.

Another thing that brings people who are particular as to what and how to wear clothes to us, is that we let nothing go out of our store unless we are satisfied it is "just right." In short, you make no mistake in having us to look after your needs in everything that goes to make up a gentleman's wardrobe.

Our Children's and Boys' Department is one of infinite satisfaction, both to parents and the youngsters; we please the first named in price and durability of the goods and we please the boys in style and fit. Our Hat and Shirt Departments are features in themselves. As for Shoes, we need but say that Hanan & Son's and W. L. Douglas are our leaders. We guarantee every pair we sell.

Have you seen our latest importation of Neckwear? It's worth your while to look at it. It will interest you. Notwithstanding the elegance of the goods, we sell them at the most popular price of 25 cents and 50 cents.

KUKLUX BANDITS ROUTED.

George Cook, Notorious Outlaw, Wounded in a Battle With Detectives.

Mayking, Ky., May 16.—A pitched battle occurred between a posse headed by John Wright, the celebrated mountain detective, and the Boone's Fork kuklux gang, which has been terrorizing this section for years on the headwaters of Rock House creek, 12 miles north of here.

The courier arriving here from the scene says a country ball was in progress at the home of Albert Mendel, a kuklux sympathizer, when the officers appeared. George Cook, one of the desperate kuklux outlaws and head of the Boone's Fork band, was leading in the ballroom. The other kuklux members were on the outside. Cook made a desperate resistance, the other kuklux members coming into play with their Winchester. A pitched battle was fought, at the conclusion of which George Cook was wounded outside of the Mendel home.

The remaining kuklux, Morgan Reynolds, George Mullins, John H. Boone, George Sullivan and others fled into the adjacent mountains. After Cook was wounded to the death the officers followed them into the forest and are now on their trail.

It is now probable that here will be a wholesale slaughter when the opposing enemies meet.

Great excitement prevails throughout the county. None of the officers was hurt in the desperate combat.

ARE STILL RIOTING

Strikers and Sympathizers at Albany, N. Y., Destroy With Troops and Non-Violent Men.

Albany, N. Y., May 16.—So serious was the situation here Wednesday night over the Traction Co. strike that a large number of strikers went to the state institutions which he had undertaken and returned to the executive mansion. Two thousand armed soldiers are now within the city limits, more are coming, and 2,500 are in readiness to move to Troy when Gov. Odell so orders. The strikers are threatened with armed men, women and children, and the otherwise quiet day terminated in bloodshed. A dramatic element was present at the home of Albert Mendel, the sudden death of Adj. Gen. Hoffman.

As long as the Traction Co. does not attempt to move cars or bring in non-union men the crowd on the street remains quiet. The strikers are taunting the soldiers and police, but the instant an attempt is made to work on the lines or bring non-union men into the city, the strikers become frenzied and bloodshed results.

Many Persons Injured.

Citizens, sober, shamed, non-union men with broken hearts and empty pockets, women and children, trampled under foot, soldiers maimed with flying missiles, and leaders in the crowd bent with muskets were some of the results of the day.

The mob and militia closed in combat late Wednesday afternoon, but by the accident of fortune there were no serious casualties. The introduction of more non-union men to take the places of striking traction employees that produced the violence. Several non-union men were reached the Union depot shortly before 9 o'clock, and their delivery at Quill street barn a mile and a half from the city.

The delivery of the non-union men was escorted with mob resistance in attempts every block. Frenzied men swarmed through the police lines, and around the mob, flying cavalrymen, and fought to get at their crowd non-union men inside the circle of gunpoint horses.

There Were No Fatalities.

The may of the setting sun gave a glint to the saloons, and the blindfolded by forbearing hands seldom descended in serious blows. Several of the mob were knocked down by the cavalrymen, but the record does not yet show the score of a single fatality.

In the passage through the streets from the saloons, the mob, flying bricks and stones that were hurled at them, but less than a dozen were badly hurt. The courage of nearly 100 strikers, who were armed with the munitions of war, failed them in the opening, but through the crowds, and they sprang from the wagons that carried them, to mingle with and be lost in the crowd.

WANTED FOR MURDER.

Will B. Aiken, Charged With Killing Will B. Aiken, Was Shipped and Grand Jury Under Arrest.

Onondaga, N. Y., May 16.—Deputy Sheriff Hubbard, of Hart county, Kentucky, arrived in the city Wednesday and identified Will B. Aiken, who was arrested Saturday as the man charged with the murder of Mrs. Mary Aiken, a 12-year-old girl, grandson, near Manfordsville, Ky., in October, 1892.

After satisfying himself that Aiken was the man who had killed the girl, Hubbard went to Lincoln to procure registration papers. They were honored and he started for Kentucky with his prisoner.

The feeling against Aiken is very bitter in Hart county. "My Mr. Hubbard, 'and if I succeed in getting him out of the Manfordsville jail without a trial, I shall consider myself lucky."

The arrest of Aiken was made last Saturday upon information received from a woman friend of the Aikens. Aiken admits he is the man wanted in Kentucky for the murder, but denies that he is guilty.

IS SERIOUSLY ILL.

The Condition of Mrs. William McKinley is Causing Much Apprehension.

NORTHWESTERN TOUR IS ABANDONED.

She is Unconscious at Times, But is Not Regarded as in Immediate Danger of Dissolution.

As Soon as She is Sufficiently Strong the Homebound Trip Will Be Made By the Most Direct Route.

San Francisco, May 16.—Owing to the very serious character of Mrs. McKinley's illness, the president has definitely decided to abandon his contemplated northwestern tour and to return to Washington direct, as soon as Mrs. McKinley is able to stand the journey. The gravity of Mrs. McKinley's condition has been known to the members of the president's immediate party for several days, but has been concealed in the belief that she would rally, as she has done so frequently in the past, and with a few days of absolute rest and quiet would be restored to her normal condition. But her present illness has been attended with entirely new complications, which have yielded to treatment, and the president concluded Wednesday morning that it was time the public should be apprised of the true situation. He is also anxious that the citizens of the cities and towns along the planned route of his return trip, who have made such extensive preparations for his visit, should be apprised of the modification of the circumstances which compelled his decision.

Three Physicians in Attendance.

Dr. Henry Gibbons, of San Francisco, was called to the president's bedside, and Dr. Hirschfelder and Dr. Hisey, Dr.

Mrs. William McKinley.

Gibbons has a reputation here for his skill in the treatment of bowel disorders. It was the president's own wish that another physician be called in consultation because he desired that nothing that science could do should be left undone.

Ever since Mrs. McKinley arrived at the Scott residence she has been seriously ill. Her extreme weakness has been the most alarming feature of her condition. Her vitality has been at a low ebb, and she has seldom spoken to those about her. The president has been continually at her bedside since their arrival here Sunday night, save the few hours Monday afternoon when he went to the San Jose and the three hours he spent Tuesday in the parade. Fortunately, Mrs. McKinley slept through his absence on both these occasions.

Great Strain on the President.

The strain which the president himself has undergone during the past few days has been very great. It has been a personal strain for him to carry out his engagements here in order not to disappoint the people, and it is still his desire to carry out the prearranged programme in San Francisco to the very extent he can. The members of the cabinet reluctantly consented to carry out Wednesday's programme at the University of California and at Oakland. The visit to Mount Tamalpais, arranged for Thursday, has been abandoned.

Mrs. McKinley's illness has cast a shadow over the whole city. The people have shown their sympathy in a multitude of ways. All day long the little groups have been standing across the street opposite the Scott residence silently watching the drawn blinds of the room in which Mrs. McKinley lies. From all over the country Wednesday afternoon telegrams have been coming to the president expressing sympathy for Mrs. McKinley and asking for tidings of her condition. Just how soon Mrs. McKinley will be able to travel is a question which no one can answer.

Long Trip Across the Continent.

It is likely it will be some days before she is able to endure the long trip across the continent, but as soon as she is sufficiently strong the trip will be made by the most direct route. No stops will be made, and it is believed the trip can be made in five days.

At 7 o'clock Wednesday night Mrs. McKinley was no better. She has taken nothing but liquid nourishment for several days, and her extreme weakness exists in the most dangerous condition. The attending physicians are to hold another consultation about 10 o'clock. The members of the cabinet who were at the president's entertainment, given by the Bohemian club Wednesday night sent their regards.

MINE EXPLOSION.

Either Gas or Dust Became Ignited in a Shaft Near Fairmont, W. Va.

SIX MINERS WERE INSTANTLY KILLED

Five Others Received Fatal Injuries and Three Seriously Burned by the Flames.

It is Reported That One of the Men Smuggled a Torch into the Mine as a Better Light.

Fairmont, W. Va., May 16.—Six miners lost their lives, five were fatally injured, and three seriously burned in an explosion in the mine of the Georges Creek Coal and Iron Co. at Farmington, seven miles west of this city, on the main line of the Baltimore and Ohio railroad, Wednesday morning.

The dead are: Maynard Healy, of Mannington; Joe Nichols, of Leno; William J. E. Eversen, of Farmington; Joe Donnicke, Italian; Tony Phillipi, Italian.

The injured: Charles Carpenter, fatally; Carl Hater, fatally; Hershel Eversen, fatally; Joe Hlane, fatally; Italian, fatally; Jefferson Fast, Thos. Hainbridge, an Italian.

The mine was only recently put in operation by the Georges Creek, which is in Baltimore, Md., and 125 men were employed, only 40 of the number working under ground. Tuesday a number of cars were left at the mine and the management decided to break all records with Wednesday's output. So, early Wednesday morning, 15 men were assigned to work a portion of the mines that has been worked for some time, and the remainder were put to work on headings some distance away.

In the morning, it is alleged, had smuggled a torch into the mine, as it gives so much better light than the safety lamps prescribed by the company.

Frequent Warnings.

There is an immense fan of fresh air into the mine at every revolution, and as the shaft was considered one of the safest in the region, the miner did not heed the frequent warnings of a fellow employee, who warned him of the risk he was taking. At 9:15 the miner fired a shot and the smoke which was very dense caught fire from the torch and spread to either the gas or dust and the explosion followed.

At least ten men are still in the mine, and as the shaft was still ablaze at 3 o'clock Wednesday afternoon, it was impossible to make an effort to rescue them, and it may be a day or two before the flames can be subdued. One dead body has been recovered and it is other miners have been taken out, a number of whom are not expected to live.

The original resolution, passed May 15 as the date when such reductions should become effective. Two clubs remain to be heard from. No one is too rich or too poor to use Arbucks' Coffee. The famous brand is blended to suit the taste of the many—not the few. Its price is made to suit the purses of all. It's the finest flavored coffee (robust) any coffee of its kind in the world. A package of

ARBUCKLES' Famous Roasted COFFEE

will make a larger quantity of coffee than a package of any of its imitations. Therefore, although it costs a cent a pound more, it is really less expensive than other package coffees. Order Arbucks' Coffee of your grocer and get more coffee goodness, greater actual value, than you can get in any other coffee at anywhere near its price.

on the wrappers. Each one entitles you to a definite part of some useful article—a list of which will be found in the packages, together with full information.

The Field Day will give the ladies an opportunity to see a good basketball game. One of the features of the program will be a game between two of the Association's picked teams. The field is being gotten in order and the boys are training for their novel events. Fourteen men have entered the hundred-yard run. Bronze athletic medals will be given to the winner in each event. A large crowd ought to be on the 21d to see the out-door sport.

RIVER NEWS.

The Courier was up for Pomeroy last night.
The big Indiana will be down from Pomeroy tonight.
The Henry M. Stanley is due tonight for Charleston.
The Keynote State will pass tonight for Pittsburgh.
The excursion steamer Frances J. Torrance has been equipped with a set of chimes that can be heard three miles.
If the Excel was as large as the noise her whistle makes there wouldn't be room enough in the Ohio for her to turn around.
There is a nice boating stage now on in the Ohio, and the packets are doing a lively passenger business, as well as hauling all the freight they can handle.
The new White Star Line steamer Celtic has been launched at Belfast. The Celtic is 700 feet long, 25 feet beam and 40 feet depth of hold. She measures 20,800 tons gross and 15,500 tons net. She will carry 3,000 passengers. The Celtic is 5% feet longer, but the Celtic is 7 feet wider.
The rule established by the Government some time ago, excluding passengers from the pilot-boats on all steamboats while the boats were running, was severely criticised by steamboat owners, commanders and the people generally who patronized steamboats on the Ohio and Mississippi rivers and their tributaries, especially during the spring and summer months. Colonel Hite, President of the Louisville and Evansville Mail Company, under whose personal supervision the new steamer Morning Star was built, has provided a much handsomer and more convenient place on the new boat than the pilot-house for sightseers, and it will certainly be appreciated by the passengers, especially the ladies. The entire front part of the large Texas has been converted into a roomy, well-furnished and handsome observatory. During inclement weather the occupants can be protected by large glass windows, and in pleasant weather they can be thrown open, making it a charming place to view the scenery along the river at all times. It is the first one ever placed on a steamboat, and will soon become in general use on all the boats, as well as be very popular with passengers.

An Open Letter.
We desire to say that our business since January 1st has passed the mark anticipated. We wish to be frank; therefore we are not attempting to talk to business people and put it in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in "Big Words"? Most of them seem to say something that means nothing. Names are invented for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to tone the product, because the product hasn't enough of it. Fine feathers make fine birds, but the words do not make fine goods. We are strong believers in advertising because it is a good thing, but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as consistent with legitimate business methods.
Our spring importation of Dress Goods, White Goods, Carpets, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,
GEORGE COX & SON,
82 years selling good goods.
